

RX1 PRO

ECU FOR 4-STROKE

RX1 PRO 4-STROKE ECUs

ECU FOR 4 STROKE ENGINES + MAP SWITCH + WIFI COM

INCLUDED IN THE KIT

RX1 PRO is the brand new GET ECU for the 2018 **4-stroke** machines; it is a perfect mixture of technology and flexibility: ready to be installed on bikes with standard engines and totally reprogrammable on its parameters, RX1 PRO comes with 2 maps developed by GET R&D Department:

Map 1: Racing

Map 2: Racing + GPA "Traction Control" at level 5.

RX1 PRO works perfectly on standard engines, as well as when a racing exhaust is installed. It is the best solution also in case of tuned up engines: it is possible to completely set up each map using **Maya, GET's professional software**. Furthermore, RX1 PRO can be **reconverted** and will be suitable to any other bike, even of a different make (from 2018 on, due wiring compatibility).

KEY BENEFITS

REPROGRAMMABLE
WITH MAYA SOFTWARE

ACCESSORIES

LC-GPA

Developed together with the best MXGP and AMA SX riders, LC-GPA is the brand new device which combines GET GPA "Traction Control" Technology with an extremely efficient Launch Control System.

GPA SWITCH

GPA Switch allows the rider to adjust in real time GET GPA "Traction Control" level on a scale from 0 to 10. technology at the core of GET's success.

2nd INJECTOR KIT

Una tecnologia GET unica ed innovativa. Il Kit Secondo Iniettore è stato studiato per aumentare le prestazioni e supportare il lavoro dell'iniettore originale, evitando cali di erogazione di potenza e incrementando la guidabilità e la velocità della moto.
